

Pre-Call Announcement
Community Disaster Risk Reduction Fund Third Call for Proposals

The Community Disaster Risk Reduction Fund (CDRRF) is pleased to provide advanced notice on its upcoming Third Call for Proposals on July 1, 2015.

Aware of the events that have affected the region, and mindful of the CDRRF's responsive focus on community-level disaster risk reduction (DRR), the CDRRF wishes to approach the next Call for Proposals in a way that can maximise DRR opportunities for some of the most vulnerable, and hardest hit communities in the region.

The purpose of this advanced notice is to give potential applicants in Caribbean Development Bank Borrowing Member Countries enough time to search for suitable partners and discuss opportunities for collaboration, in anticipation of the official Call for Proposals.

We invite you to review the Guidance Note on the CDRRF webpage at <http://www.caribank.org/programmes/cdrr1/how-to-apply> and take note of the application requirements in preparation of submission of your concept note.

We looking forward to having you answer the Call!!

Best regards,

The CDRRF team
